

Name: _____

Date: _____

HOMEWORK 13

1. Subtract 29 from 100 then multiply by 8. Write the expression and solve.

2. In a city of 684,000 people, 0 of the population is over 60 years old. One-third of the remaining population is under 5 years old. How many people in that city are from 5 to 60 years old?

3. Write the numerical equation that goes along with this problem and compute:

The difference between 143 and 58, divided by 5

4. It is currently 10:08 PM.

What will the time be in a thousand minutes?
