HOMEWORK 16

1. The librarian displayed 18 books about dinosaurs on the counter, but there are 27 times as many still on the shelf. How many are on the shelf?

2. Rebecca says the length of her favorite movie is 120 minutes, but she has rounded the time to the nearest ten. Which could be the number of minutes of Rebecca's favorite movie before she rounded it: 124.9, 111.25 or 113.95?

3. For his mom's birthday, William spent 5.87 on a photo, 15.99 for a cake and 13.45 for flowers. How much did he spend all together?

4. In parking meters downtown, you can get 15 minutes parking for 50c.

Dad put \$3.50 into the parking meter at 3.15pm.

At what time did the parking meter expire?
