HOMEWORK 20

1. McKenna has $4\frac{1}{3}$ cups of flour in her pantry. She uses $1\frac{2}{3}$ cups of flour when baking cookies. How much flour is left in the pantry?

2. Last week, Delaney ate $\frac{1}{4}$ of the box of cereal and her brother, Bryce, ate $\frac{2}{3}$ of the box. How much cereal did they eat, altogether?

3. The box on Ms. Frazier's desk has a length of 9 inches, a width of 5 inches, and a volume of 270 cubic inches. What is the height of the box?

4. In the first quarter of last Friday's basketball game, Katie and Sarah scored all the points for the Gold team. Sarah shot $\frac{1}{4}$ of all the points. Katie shot 12 points. How many points did the Gold team score?

In the second quarter of the game, Katie scored a fifth of the team's 20 points while again Sarah scored the rest.

How many points did Sarah score?
