HOMEWORK 2

1. Karinna loves hair bows. She has 30 bows. She went to the store and bought 11 new ones. Then, she threw away 15 of her old ones. How many bows does Karinna have now?

2. Mr. Hanks brought in a bag of 70 animal crackers for his class. He ate 3 animal crackers and then gave 3 animal crackers to each of his 21 students. How many animal crackers does he have left?

3. Janet bought fish and a bag of potatoes for the dinner. The total cost of the fish was 4 times as much as the cost of the potatoes and the total cost of the fish was \$12. How much did the potatoes cost?

4. I have three dogs of different ages. If I add their ages together, I get 15. If I multiply their ages together, I get 45. How old are my dogs?
