# POW I

At Fairview Middle School, 75 band members need to raise a total of \$8,250 for a trip. So far, they have raised \$3,120.

## PART A

How much money, in dollars, **per band member**, still needs to be raised for the trip?

The entire band decides to have a concert to raise the money for the trip. Tickets for the concert will cost \$7.50 each. A local business agrees to donate an additional \$0.50 for each \$1.00 in ticket sales to the band for the trip.

## PART B

What is the **least number** of concert tickets the band must sell to raise the rest of the money needed for the trip?
