

POW 15

Logan wrote a few equations below. He wants to plot a point on each number line to represent the value of x .

PART A

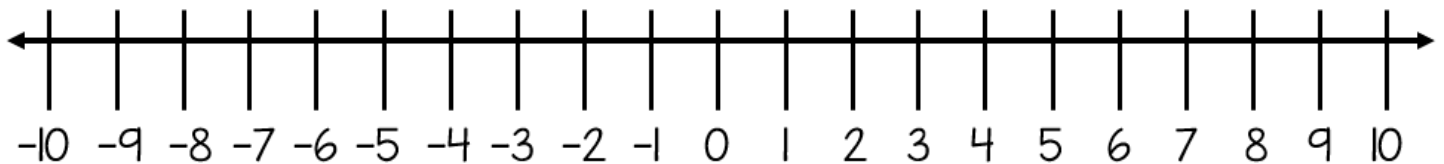

Plot the value of x on the number line below.

$$-7.5 + 3.5 = x$$

**PART B**

Plot the value of x on the number line below.

$$-5.5 + 2 = x$$

**PART C**

Plot the value of x on the number line below.

$$-5.5 - 2.5 = x$$
