

POW 5

Kelsey's favorite crackers are available in two different sizes. The two different-size boxes and their prices are shown.

PART A

What is the price per ounce of the regular-size box of crackers? Show or explain how you got your solution.

PART B

Which size box of crackers has the lower price per ounce? Show or explain how you got your solution.

PART C

Kelsey has the following coupons:

Coupon 1: Save \$0.50 off the total price when you buy 2 regular-size boxes of Crunchy Crisp Crackers.

Coupon 2: Save \$0.30 off the price when you buy 1 large-size box of Crunchy Crisp Crackers.

Which coupon should Kelsey use to pay the lower price per ounce for the crackers? Show or explain how you got your answer.
